RE: City-County of Butte-Silver Bow and Port of Montana 2019 BUILD Grant Application

Dear Secretary Chao,

I am writing on behalf of Jeremy Gatz Miller to express our strong support for the City-County of Butte-Silver Bow and the Port of Montana's 2019 BUILD transportation grant application to secure funding for vital rail and road expansion.

A \$7.7 Million investment of BUILD funds will help leverage \$1.4 Million of local match dollars. These funds will compliment an additional \$7.2 Million of local investment in transloading, storage, lead and spur tracks planned in the next 3-6 months. With the help of BUILD funds, the final development phase for the area will be able to break ground in early 2020, having significant impact on commerce and transportation options throughout Montana and the region.

Located at the intersection of two interstate highways and two Class I railroads, the Port of Montana and Montana Connections Business Development Park are ideally located for manufacturing and transportation. Current rail capacity is limiting activities at the Port of Montana and forcing them to turn down new business opportunities. Additionally, the lack of rail served industrial sites within the Montana Connections Park has restricted what types of companies and operations they are able to attract. Completing this project will alleviate both restrictions and allow both entities to reach their full potential.

These activities are vital to the growth and vitality of Western Montana and the state of Montana as a whole. Our team is located in Missoula and work specifically on promoting the amazing things coming out of the Montana Connections Business Development Park. We've targeted out-of-state stakeholders, site-selectors and business owners to showcase Butte and the business opportunities available. It's helped our company offer these digital marketing services and grow our company to employ local graduates and recruit employees from out-of-state to work on projects right here in Big Sky country.

The momentum is building and we believe with the BUILD transportation grant and rail and road expansion, Butte can continue to attract out-of-state business.

We strongly urge your approval of this grant application. Additional infrastructure will assist current Montana shippers and encourage business investment resulting in new job creation and economic benefits for the region.

Sincerely, Kyle Pucko, Pintler Group Marketing.
