RE: City-County of Butte-Silver Bow and Port of Montana 2019 BUILD Grant Application

Dear Secretary Chao,

I am writing on behalf of Headwaters RC&D Area INC. to express our strong support for the City-County of Butte-Silver Bow and the Port of Montana's 2019 BUILD transportation grant application to secure funding for vital rail and road expansion.

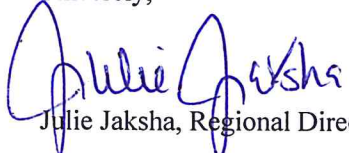

A \$7.7 Million investment of BUILD funds will help leverage \$1.4 Million of local match dollars. These funds will compliment an additional \$7.2 Million of local investment in transloading, storage, lead and spur tracks planned in the next 3-6 months. With the help of BUILD funds, the final development phase for the area will be able to break ground in early 2020, having significant impact on commerce and transportation options throughout Montana and the region.

Located at the intersection of two interstate highways and two Class I railroads, the Port of Montana and Montana Connections Business Development Park are ideally located for manufacturing and transportation. Current rail capacity is limiting activities at the Port of Montana and forcing them to turn down new business opportunities. Additionally, the lack of rail served industrial sites within the Montana Connections Park has restricted what types of companies and operations they are able to attract. Completing this project will alleviate both restrictions and allow both entities to reach their full potential.

The Port of Montana is a Port Authority which was formed by BSB in 1988 to enhance economic development diversification and create jobs in the transportation industry. Expanding the port will allow us to enhance economic growth and bring new businesses into southwestern Montana. Completing the 2019 BUILD, we will not only be able to attract new customers but also have new rail lines which will have an immediate impact on daily operations.

We strongly urge your approval of this grant application. Additional infrastructure will assist current Montana shippers and encourage business investment resulting in new job creation and economic benefits for the region. If you have any questions please don't hesitate to contact me at 406-533-6780.

Sincerely,

Julie Jaksha, Regional Director
