Source: Base Map data was digitized from 1989 and 1991 photography by Interlog. The data has not been field checked by BIG GIS. Changes occurring after the date of photography may or may not be reflected in the base map. Section lines were originally from CGSIS (in 2003 BIG GIS data and have been updated to date of the data from BIG GIS points obtained from Tiedt and BIG GIS. Zoning boundaries were digitized to BIG GIS from 1978 and 1987 zoning maps. Misconceptions may occur. Any decisions as to what can be used for zoning and other purposes are the responsibility of the user. No liability will be assumed by the Butte-Silver Bow Government for decisions based on information made exclusively from this map.
